PROJECTS

Customer Behavior Analysis

- Analyzed customer purchasing data using Python, SQL, PostgreSQL, and Power BI, including data cleaning and preprocessing.
- Created an interactive Power BI dashboard to identify customer trends, top-performing categories, KPIs, and business insights.

HR Analytics

- Analyzed employee data using Power BI to understand attrition, workforce distribution, job roles, salary, and demographics.
- Developed an interactive dashboard to track HR KPIs and identify patterns that support workforce and retention analysis.

Hospital & Healthcare Analytics

- Analyzed healthcare data using Excel, Python, SQL, PostgreSQL, and Power BI to examine patients, admissions, medical conditions, and billing.
- Built analytical dashboards to identify patient trends, insurance patterns, test results, and length-of-stay insights.

Sales Analysis – Excel Dashboard

- Analyzed sales and profitability data using Microsoft Excel, PivotTables, PivotCharts, and Slicers.
- Developed an interactive dashboard to evaluate product, regional, salesperson, and overall sales performance.
